

1 ABSTRACT OF THE DISCLOSURE

2 An umbrella frame structured for use in a strong wind
3 conditions such as those conditions frequently encountered on
4 a boat traveling at relatively high speeds. An umbrella frame
5 assembly includes a reinforcing assembly connected thereto in a
6 supportive, operative orientation thereby providing a stable
7 support for an umbrella canopy which can remain open even during
8 travel of the boat. The frame assembly can be modified to
9 support canopies of varying shapes and sizes and the frame
10 assembly can be easily removed, for storage purposes, from a
11 supporting base which may be mounted on or connected to a boat.
